# OUR STORY

## A HISTORY OF PASSION AND INNOVATION

Rain International has always had a passion for innovation, exploration and rebirth. Rain itself is a resurrected company. Salvaged and purchased by Byron Belka and the other founders of Rain, these visionary men saw the high demand and need for such an incredible product to be brought to the world.

With a few boxes of Soul, a lot of hard work, and a little luck, they were able to hit \$10 million the first year in sales. The next year, it doubled. The following year it almost doubled again. In just over three years, Rain International will hit \$60 million in sales. This monumental accomplishment is driven by an army of faithful distributors and partners, willing to share a product that changes lives.

Rain International is more than the products we sell. From the beginning, we set out to improve and change the world around us. We began with the health industry, creating a completely new category, and changed how the world viewed nutrition, but we didn't want to stop there. Now, we try to move beyond into global sustainability, education initiatives, elevated lifestyles, and more. Deep down, we all desire more, but don't know how to reach it. We're here to show you how close it really is.

HUNGARY / HONG KONG / JAPAN / MALAYSIA / PHILIPPINES /  
SERBIA / SINGAPORE / TAIWAN / USA / VIETNAM

# THE SCIENCE BEHIND THE SEEDS

Utilizing special seeds from ancient corners of the world and modern science, we have combined the raw goodness of seeds and nutrients into our flex pack pouches.

Our products have been proven to help neutralize free radicals contained within the body. These seeds are non-GMO and 20-30 times more nutrient dense than most fruits and vegetables. Our products are powerful antioxidants and help prevent freeradical damage by fighting oxidation and inflammation.

CATEGORY CREATOR

200K DISTRIBUTORS.

16 MARKETS WORLDWIDE.

50% GROWTH YEAR OVER.

4TH YEAR IN BUSINESS.
